

Procurement Outreach

If you are interested in selling your products or services to the government, the Procurement Technical Assistance Center (PTAC) helps simplify the process and cut through the red tape, connecting Nevada businesses with opportunities through:

- **Education** of the contracting business through seminars and workshops (sponsored or co-sponsored) and one-on-one discussions of a specific or general nature.
- **Marketing** your firm, whether you're a manufacturer, distributor, service provider or construction contractor; brainstorming for specific targets and mechanics of how the purchases are executed; providing bid information and pro-actively marketing our clients with buying offices and prime contractors.
- **Technical Assistance** to include working with clients on quotes, bids, proposals, pre-award/post-award situations and compliance issues.
- **Support Documentation** to include forms, mil specs/mil standards, inspection and quality control, procurement history, clauses, reports, regulations, etc.
- **E-Commerce** links to support exchange of information through individual purchasing offices, downloads, announcements, etc. A daily bid download and informal broadcasts are also provided directly to your e-mail.
- **Networking Assistance** to enhance visibility for business prospects, encourage opportunity teaming arrangements, identify other resources and create alliances to pursue industry specific programs such as set-asides, hi-tech, etc.

PTAC provides Nevada companies these services without charge. To view PTAC's upcoming events, [please click here](#). You may call 775-687-9900 in Carson City to schedule an appointment or they can be reached via email at procurement@diversifynevada.com.

The Procurement Technical Assistance Center is a cooperative agreement between the State of Nevada and the federal government assisting businesses statewide to initiate or expand marketing efforts of their products and services.
