Common Business Registration

SilverFlume collects Common Business Registration data, basic information that nearly every governmental agency in Nevada requires, and disseminates it to participating agencies. Common Business Registration data streamlines processes across agencies to guide the customer smoothly through state and local requirements. As part of the one-shop stop experience, customers may purchase all items in their shopping cart with multiple agencies with one form of payment.

Digital Operating Agreement

The first of its kind, Digital Operating Agreement software allows LLCs to electronically collaborate, document, formalize and store decisions related to roles, values and goals, contributions, allocation of profits and losses, transfers of interest, and other common areas—at no charge.

- Electronic template for basic operating agreements and by-laws that can be adapted and filed digitally
- Officers and directors can provide written consent to adopt operating agreements and by-laws electronically
- LLCs can conduct corporate communication through up-to-date technology
- Certain non-profit board of directors can conduct meetings electronically
